

Green Chop and Hay Feeder

Designed to feed silage, green chop, large round or square bales. The 3/4" exterior plywood is 4ft. high and is easy to remove for feeding large round bales. "V" in center promotes feed-down within the reach of the animals. Equipped with a telescoping tongue and 1 1 L15 8-ply tires and tubes, Trough height is 24". Pricing includes plywood panels fitted for the center V.
