

Horse-Related Equipment

Our Weldy line of horse equipment is rugged and economical. For our full-line of horse equipment see our Handi-Klasp web site and our Handi-Klasp PDF catalog.

Portable Loading Chute

Weldy's portable loading chute is the solution for loading and unloading when on the go. Wolmanized wood on both floor and sides. Chute sides hinge for different truck bed heights. Comes with retractable tongue for towing flat.

12' L x 30" W (26" wide inside)

Corral Panels

Weldy's corral panels answers the need for horse owners. They provide versatility for creating various shapes and size pens. Walk through arch gates available. This gate hinges in or out making livestock sorting as well as entry or exiting from corral easy and fast. The Weldy Corral Gates can also be attached to the Weldy Portable Loading Chute for easy loading of livestock.

Specifications:
